COMPONENT HOLDING TAPE

Multi colored Holding tape mainly used to hold panels, drags plastic parts, grills, glass plates & variety of components in the fridge and other white goods appliances.

- Temperature resistant residue free.
- Clean removal even after a long period of storage.

DOOR HOLDING TAPE (Mono & Cross Filament Tape)

Polyester film with glass yarn.

- Heavy duty filament tapes.
- Clean removal even after a long period of storage.
- Recommended to hold heavy components like doors during transportation.

AIR VENT TAPE

Air vent is a Non-Woven porous backing tape which allow permeability of high air/gases during foaming insulation process in home appliances.

- Venting tape covers holes to prevent the PU foam from squeezing out during injection while still allowing air flow.

MASKING TAPE

Crepe paper Masking tapes.

- For covering various holes before foaming.
- Residue free and hand tear able.
- Temperature resistance.
- ROHS Compliance.

S/S FOAM TAPE

Single sided tape which provides cushion against vibration and shock and is easily compressed and conformed.

- Elastomeric closed cell tape, Gasket Application.
- Mainly used in filling the gaps in between two panels to hold the part.

D/S ACRYLIC FOAM TAPE

Double sided foam tape used for fixing, mounting trims and emblems.

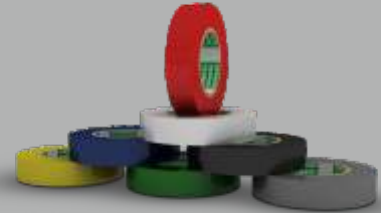

- Recommended to bond many similar or dissimilar substrates.
- Required length & widths are available. • UV resistant.
- Thickness : 0.2mm, 0.4mm, 0.8mm, 1.1mm, 1.2mm, 1.5mm & 2.0mm
- Different variety of GHB200 G1, GHB400 G1, GHB800 G1, AFT NX110 B & AFT NX150 B also available in Grey & Black Colour.

PVC INSULATION TAPE

It is made PVC film coated with a rubber based adhesive on side. High elongation and excellent conformability for wire harness.

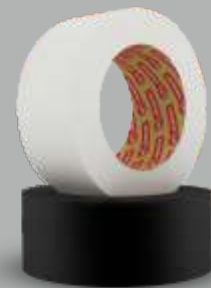

- REACH compliance.
- FR grade.
- High temperature PVC wire harness tape for cable wire.
- Harness industry with higher thickness.
- DINP free material available.

ACETATE CLOTH TAPE

Description: - Unique electrical tape offering excellent conformability ability in coil wrapping application. It also offers excellent absorption of Resin & varnishes. It has got the excellent property of sound dampening.

- Flame Retardant.
- Easy cut and excellent flexibility for optimum bundling of wires.
- Insulation and corrosion and resistant.

PROT PVC TAPE (PLG 10)

- PVC Film seals the copper wire (Indoor & outdoor wires) during installation of Air conditioning
- Thickness : 0.135 + 0.015 - 0 (Also in different thickness)
- High mechanical strength
- High voltage resistance
- High temperature resistance
- Ideal product for applying on the air conditioning industry

D/S POLYESTER TAPE

Double Sided polyester tape coated with strong synthetic rubber.

- Water proof.
- For Poly carbonate label.
- Ideal product for washing machine control panel label.

ALUMINIUM TAPE

Aluminium tape is a specialty tape designed for mounting of refrigeration coils & other similar type of applications-It's the RIGHT Recommendation for holding of condenser/evaporator coils in the refrigerators.

- Various thickness available & also available with liner and without liner
- Higher lengths are also available

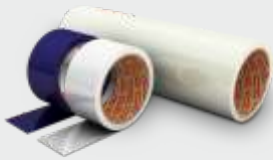

NOTE: Aluminium tape with liner & without liner are also available in higher length on request

REMOVAL/ REPOSITIONING TAPE FOAM /FILM BASE

Adhesive tape with open side Strong / Permanent adhesive and close side weak / low tack adhesive for residue free removal.

- Removable stickers. • Labels. • Temporary signage.
- Posters. • Dangers. • More variants are available.

SURFACE PROTECTION TAPES

The Product is used for protection of surface finishes from dirt, scratches and tool marks during handling, storage, forming and assembling.

- Residue free filmic tape.
- High Clarity. • Low Tack. • Flexible. • For Hot & Cold Application

FSK FOIL TAPE

FSK which stands for foil scrim kraft is used as jacket facing for glass wool, rock wool, PU foam and other insulation to protect them against vapor moisture, in order to work more effectively.

- Use for sealing FSK duct board.
- Excel in demanding temperature and humidity applications.
- Long lasting adhesion on clean/dry surfaces.
- Full bond within 24 hours. • With release paper.
- To seal joint in air conditioning industry requiring high strength.
- Products application:- HVAC ducting purpose.

DIE-CUTS (SINGLE/DOUBLE SIDE)

- Various double side & single side foam, PU foam, EVA foam, Nitrile foam, EPDM various thickness & other substrate available in die cuts.
- As per specific design, drawing various types of die-cuts can be supplied.

DOUBLE COATED TISSUE TAPE

Double coated tissue tape is a special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leather, cloth, wood, plastic and any two similar or dissimilar materials.

- Special formulated adhesive provides strong power and no adhesive deterioration
- Excellent temperature and solvent resistant
- Good shear strength, the adhesive strength is hardly affected with temperature change and long storage
- No Slippage long after applied

D/S TISSUE TAPE (EZ-500)

Special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leathers, clothes, woods, plastics any two similar or dissimilar materials.

- Splicing papers, plastic films, cloths and corrugated boards.
- Acrylic based adhesives provides strong holding power and no adhesive deterioration.
- Work excellent, high temperature and solvent resistant.
- Good shear strength the adhesive strength is hardly affected with temperature change and long storage.
- No slippage long after applied.

D/S TISSUE TAPE (EZ-910)

- Excellent adhesion to rubber & different types of foams.
- Excellent adhesion to low surface energy plastics.
- Provides good surface for die-punching.
- Good repulsion resistance.
- Specially formulated adhesive gives superior bond to PVC, PC, PP, HDPE, fabrics and trims.

D/S TISSUE TAPE (EZ-809)

- Excellent adhesion to rubber & different types of foams.
- Excellent adhesion to low energy surface plastics.
- Excellent adhesion at low temperature.
- Good repulsion resistance.
- Superior initial tack gives good balance between initial bond and ultimate bond.
- Provides good surface for die-punching.
- Specially formulated adhesive gives superior bond to PVC, PC, PP, HDPE, fabrics and trims.
- Provides superior durability (excellent age resistance).

D/S TISSUE TAPE (EZ-310)

- Excellent adhesion to rubber & different types of foams.
- Excellent adhesion to low surface energy plastics.
- Provides good surface for die-punching.
- Good repulsion resistance.
- Specially formulated adhesive gives superior bond to PVC, PC, PP, HDPE, fabrics and trims.

D/S TISSUE TAPE (EZ-8015)

- High repulsion resistance.
- Wide range of working temperatures.
- High adhesion on difficult to adhere materials e.g. low surface energy.
- Recognition by imprint of the carrier.
- Superior bond to PVC, PC, PP, HDPE, fabrics and trims.

FLOOR MARKING TAPES

Lane Marking Tape.

- Used for Safety Identification and Lane Marking for storage segmentation.
- Good Resistance to chemical & other moving objects.
- Available in various sizes & colors.

About Us

Ajit Industries Private Limited is one of the flagship company in the country, Engaged in manufacturing of "PRESSURE SENSITIVE SELF ADHESIVE INDUSTRIAL TAPES" since 1998. The Company was incorporated in Delhi by the promoters having several years of experience in the field of various type of Self Adhesive Industrial Tapes. The company is equipped with a "State of the Art" manufacturing facilities at its plants located near Delhi at Kharkhoda in Distt. Sonipat (Haryana), Bhiwandi (Mumbai) and Chennai with a combined spread over 50,000m² facility.
